

ABHYANSH SHRIVASTAVA

Data Scientist — Machine Learning Engineer

Orai, Uttar Pradesh • +91 9336925407 • shrivastavaabhyansh91@gmail.com

[Portfolio](#) • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Result-oriented Data Science graduate with a B.Tech in Computer Science and strong proficiency in Python, Machine Learning, and SQL. Demonstrated ability to build complex algorithms from scratch and deploy deep learning models using TensorFlow/Keras. Passionate about solving real-world problems through data analysis, predictive modeling, and Generative AI.

TECHNICAL SKILLS

- **Languages:** Python (Advanced), SQL, C++.
- **Machine Learning:** Regression, Classification, Clustering (K-Means), Decision Trees, NLP (SpaCy, NLTK).
- **Deep Learning & GenAI:** ANN, TensorFlow, Keras, Large Language Models (LLM concepts).
- **Data Analysis & Tools:** Pandas, NumPy, Matplotlib, Seaborn, Streamlit, MySQL, Git, Excel.

PROJECTS

Healthcare Readmission Analysis (Deep Learning)

[\[GitHub\]](#)

- Developed an Artificial Neural Network (ANN) using **TensorFlow/Keras** to predict hospital readmissions.
- Implemented regularization techniques and advanced training strategies to prevent overfitting.
- *Tech Stack:* Python, TensorFlow, Keras, Pandas, Scikit-Learn.

Customer Segmentation System (Unsupervised Learning)

[\[G-colab\]](#)

- Analyzed a transactional dataset from a UK-based retailer to segment customers for targeted marketing.
- Applied **K-Means Clustering** to group customers based on purchasing behavior (Recency, Frequency, Monetary).
- *Tech Stack:* Python, Scikit-Learn, Matplotlib, Seaborn.

Weather Prediction Application

[\[G-colab\]](#)

- Performed EDA (outlier handling) and Feature Engineering (One-Hot Encoding).
- Deployed a Logistic Regression model via **Streamlit**, achieving 85.36% accuracy.
- *Tech Stack:* Python, Streamlit, Logistic Regression, Pandas.

EXPERIENCE

Data Science Trainee

Career 247

Remote

May 2025 – Present

- Engaging in an intensive Data Science program focusing on the full project lifecycle.
- Applying advanced concepts in **Generative AI**, NLP, and Deep Learning to solve unstructured data problems.
- Conducting rigorous Data Analysis and EDA using Python, NumPy, and Pandas.

EDUCATION

Bachelor of Technology (CSE)

Jaypee University of Engineering and Technology, Guna

2020 – 2024

- *Relevant Coursework:* Data Structures, DBMS, Machine Learning, Operating Systems.

Intermediate (Class XII)

Shri Vinayak International Senior Secondary School, Orai

2019 – 2020

CERTIFICATIONS

- **Mastering MySQL:** Database Creation, Management, and SQL Queries.
- **Data Science Training:** Internshala (Python, Statistics, Predictive Modeling).
